1. Event at a Glance

HackFest 3.0 is the third edition of REC Banda's signature tech showdown, organized by the **REC Banda incubation centre foundation in collaboration with Student developer Club, REC Banda**. Over two days, participants compete across three battlegrounds – a Hackathon, an Ideathon and a Codeathon.

Name	HackFest 3.0 – Doomsday
Organized by	REC Banda incubation centre foundation in collaboration with Student developer Club
Open to	College students
Event dates	1st & 2nd November 2026 (Sunday & Monday)
Mode	Offline (on-campus event at REC Banda)
Events	Hackathon (Team Event), Ideathon (Team Event), Codeathon (Individual Event)
Registration	Starts on 18th oct 2026 -- ends on 24th oct 2026
PPT submission	from 18th -24th oct 2026
Shortlisted team announcement	Result announced on 26th oct 2026
Day 1 – Open & Compete	Sunday, 1st November 2026: Opening Ceremony, Codeathon (1.5 hours), Ideathon (single pitch round)
Day 2 – Build & Celebrate	Monday, 2nd November 2026: Hackathon with mentoring and final presentations, Grand Result Announcement, awards and closing ceremony
Opening venue	Seminar Hall (SAC), REC Banda
Venue	Seminar Hall (SAC)/computer centre(CC) , REC Banda
Accommodation	Provided for outside participants (see Section 7)

2. General Rules

1. HackFest 3.0 consists of three events: **Hackathon** (Team Event), **Ideathon** (Team Event) and **Codeathon** (Individual Event).
2. Participants must register before the given deadline through the official HackFest 3.0 registration form.
3. All participants must carry the **valid college ID card** of their own institution. Registration and ID are verified at check-in before each competition.
4. Use of unfair means or plagiarism will lead to **immediate disqualification**.
5. Participants must maintain discipline inside the venue and the campus, and follow the event code of conduct and the instructions of organizers and volunteers.
6. Judges' decisions will be **final and binding**.
7. Participants should bring and use their own laptops, chargers and development resources unless otherwise specified.
8. Reporting times, venues, platform links, submission methods and deadlines will be shared with registered teams through WhatsApp groups, emails and official social media handles.

3. Eligibility, Teams & Registration

1. The Hackathon and the Ideathon are team events. Every team must have **3 to 5 members**. No solo or 2-member teams are allowed.
2. Team members may come from the same college or from different outside colleges.
3. The Codeathon is an individual event.
4. The registration form asks for the team name and member details (including college name), contact information of the team lead, previous hackathon experience (if any), and tech stack and required resources.
5. Teams must submit their PPT on or before **26th October 2026**. Shortlisted teams will be announced on **28th October 2026**. The submission link and format will be shared with registered teams.
6. Any further eligibility details will be published with the registration details.
7. Only accommodation will be provided. Participants will be responsible for arranging their own meals, which can be purchased from the college canteen.

4. Hackathon Rules (Team Event)

1. Teams must have 4 members.
2. The Hackathon is held on **Day 2** (Monday, 2nd November 2026).
3. The Hackathon has 2 rounds: **Round 1 – Idea Pitching** (PPT submitted by 24th October 2026; shortlist announced on 26th October 2026) and **Round 2 – Project Building** (shortlisted teams build on Day 2).
4. At the start of Day 2, teams will begin working on their pre-selected problem statements from one of the six categories.
5. Detailed problem statements will be shared with registered teams in advance.
6. Projects must be developed **only during the event**. All work must be original; use of pre-existing projects is prohibited.
7. The PPT must contain **a maximum of 6 to 7 pages** .
8. Each team delivers a **5-minute pitch + 2-minute Q&A** in front of judges the judges, unless different timings are announced.
9. Use of external APIs, frameworks and open-source libraries is allowed.
10. The submission format and the final submission deadline (2nd November 2026) will be communicated to all teams before the event.

5. Ideathon Rules (Team Event)

1. The Ideathon is a **single pitch round** held on Day1 (Sunday, 1st November 2026), after lunch.
2. Teams must have 4 members.
3. Teams pitch the **problem, proposed solution, uniqueness, feasibility and expected impact** to the judging panel.
4. Each pitch is followed by judge Q&A. Pitch and Q&A durations will be announced.
5. Ideas must be original. Plagiarism or presenting a previously made idea or project will lead to disqualification.
6. Teams are scored on the approved criteria listed in Section 8.

6. Codeathon Rules (Individual Event)

1. The Codeathon is **strictly individual** – no teamwork or discussion allowed.
2. It is a **1.5-hour** timed contest held on Day 1 (Sunday, 1st November 2026).
3. Participants must bring their own laptops and chargers.
4. Internet access will be limited and monitored. The external-resource and plagiarism policies of the platform will be declared before the contest.
5. Coding languages allowed: **C, C++, Java, Python, JavaScript**.
6. Problems will be released on a competitive coding platform (HackerRank / CodeChef or an offline platform). The platform and number of problems will be announced.
7. Ranking will be based on: **1. Number of problems solved, 2. Time taken, 3. Penalties for wrong submissions**.
8. A live leaderboard is maintained. Winners are decided by the final published ranking under the contest rules and tie-breaking method declared before the contest.

7. Accommodation & Facilities

1. Accommodation will be provided to all participants coming from outside REC Banda. Details will be shared with registered teams.
2. Outside participants must carry their **valid college ID card** for verification at check-in and at the accommodation.
3. Participants must follow the rules of the accommodation and the campus, and are responsible for their personal belongings.
4. On-ground support includes a registration desk, technical support, power and Wi-Fi arrangements, and volunteers for logistics, issue reporting and time announcements.
5. Only accommodation will be provided. Participants will be responsible for arranging their own meals, which can be purchased from the college canteen.

2.

8. Evaluation Criteria

Evaluation is conducted by a judging panel, with scores recorded on confirmed score sheets and verified before any result is announced. Weightages for each criterion will be announced before the event.

Hackathon

Criterion	Evaluation Focus
Problem Understanding	Clarity of problem definition, requirements and user need.
Quality of Solution	Effectiveness and completeness of the proposed solution.
Innovation	Originality, creativity and uniqueness of the approach.
Technical Implementation	Technical depth, architecture, coding and technology use.
Functionality	Working quality and prototype demonstration.
Usability & Feasibility	Ease of use, practicality and realistic implementation.
Impact	Potential value and real-world usefulness.
Scalability	Potential for further development and deployment.
Presentation & Demo	Clarity, structure and quality of demonstration.

Ideathon

Criterion	Evaluation Focus
Problem Identification	Importance and clarity of the problem.
Originality	Novelty and distinctiveness of the idea.
Solution Approach	Effectiveness of the proposed solution.
Feasibility	Realistic possibility of implementation.
Impact	Potential value to users, community or industry.
Scalability	Potential to grow beyond the initial idea.
Presentation	Clarity, structure and communication.
Q&A / Defense	Ability to answer judge questions and justify decisions.

Codeathon

Winners are decided by the final published leaderboard under the declared contest rules and tie-breaking method.

9. Disqualification Criteria

1. Plagiarism or submission of previously made projects.
2. Misconduct or violation of venue or accommodation rules.
3. Unauthorised collaboration or helping other teams.
4. Not following the time limits or submission format.
5. Providing false information or a fake/invalid college ID during registration or check-in.

Any violation of the rules may lead to **disqualification**.
